Global solutions

TRANSPORTATION OF GOODS

We are an ideal partner for your commercial activity: transport, import or export at room temperature or temperature controlled environments of merchandise, in particular fruit and vegetables, with 40 years of experience in areas of production and with a comprehensive understanding of the sector's needs.

LOGISTICS

Our warehouses receive and manage a continuous flow of goods. They are kept in optimum conditions. They are selected, assigned and prepared for dispatch in order to reach their final destination on time and in their original quality.

SERVICE STATION

Our service station is especially thought out for professionals. Access to the installation is easy as is movement within the premises which is carefully designed for very large vehicles. It is a point of reference for many drivers.

Motorway A-7, Km 471,
04117 Almería (Spain)

03/

Our
commitment
is key

WE COMPLY WITH THE STANDARDS

We value our work which is why we act responsibly and safely caring for the environment.

WE ARE ON YOUR SIDE

We take on our clients' commitments as if they were ours, putting them at the centre of every decision we take.

WE ADAPT TO YOUR NEEDS

All our resources are focused on giving you the best solution for your needs.

WE LOOK TO OUR MUTUAL BENEFIT

We strive for our client's profitability with each and every operation because we value our customer's loyalty.

WE MAKE THINGS EASIER

We are dedicated to simplifying processes and procedures and making things easier, so you don't have to worry. We take care of everything.

04/

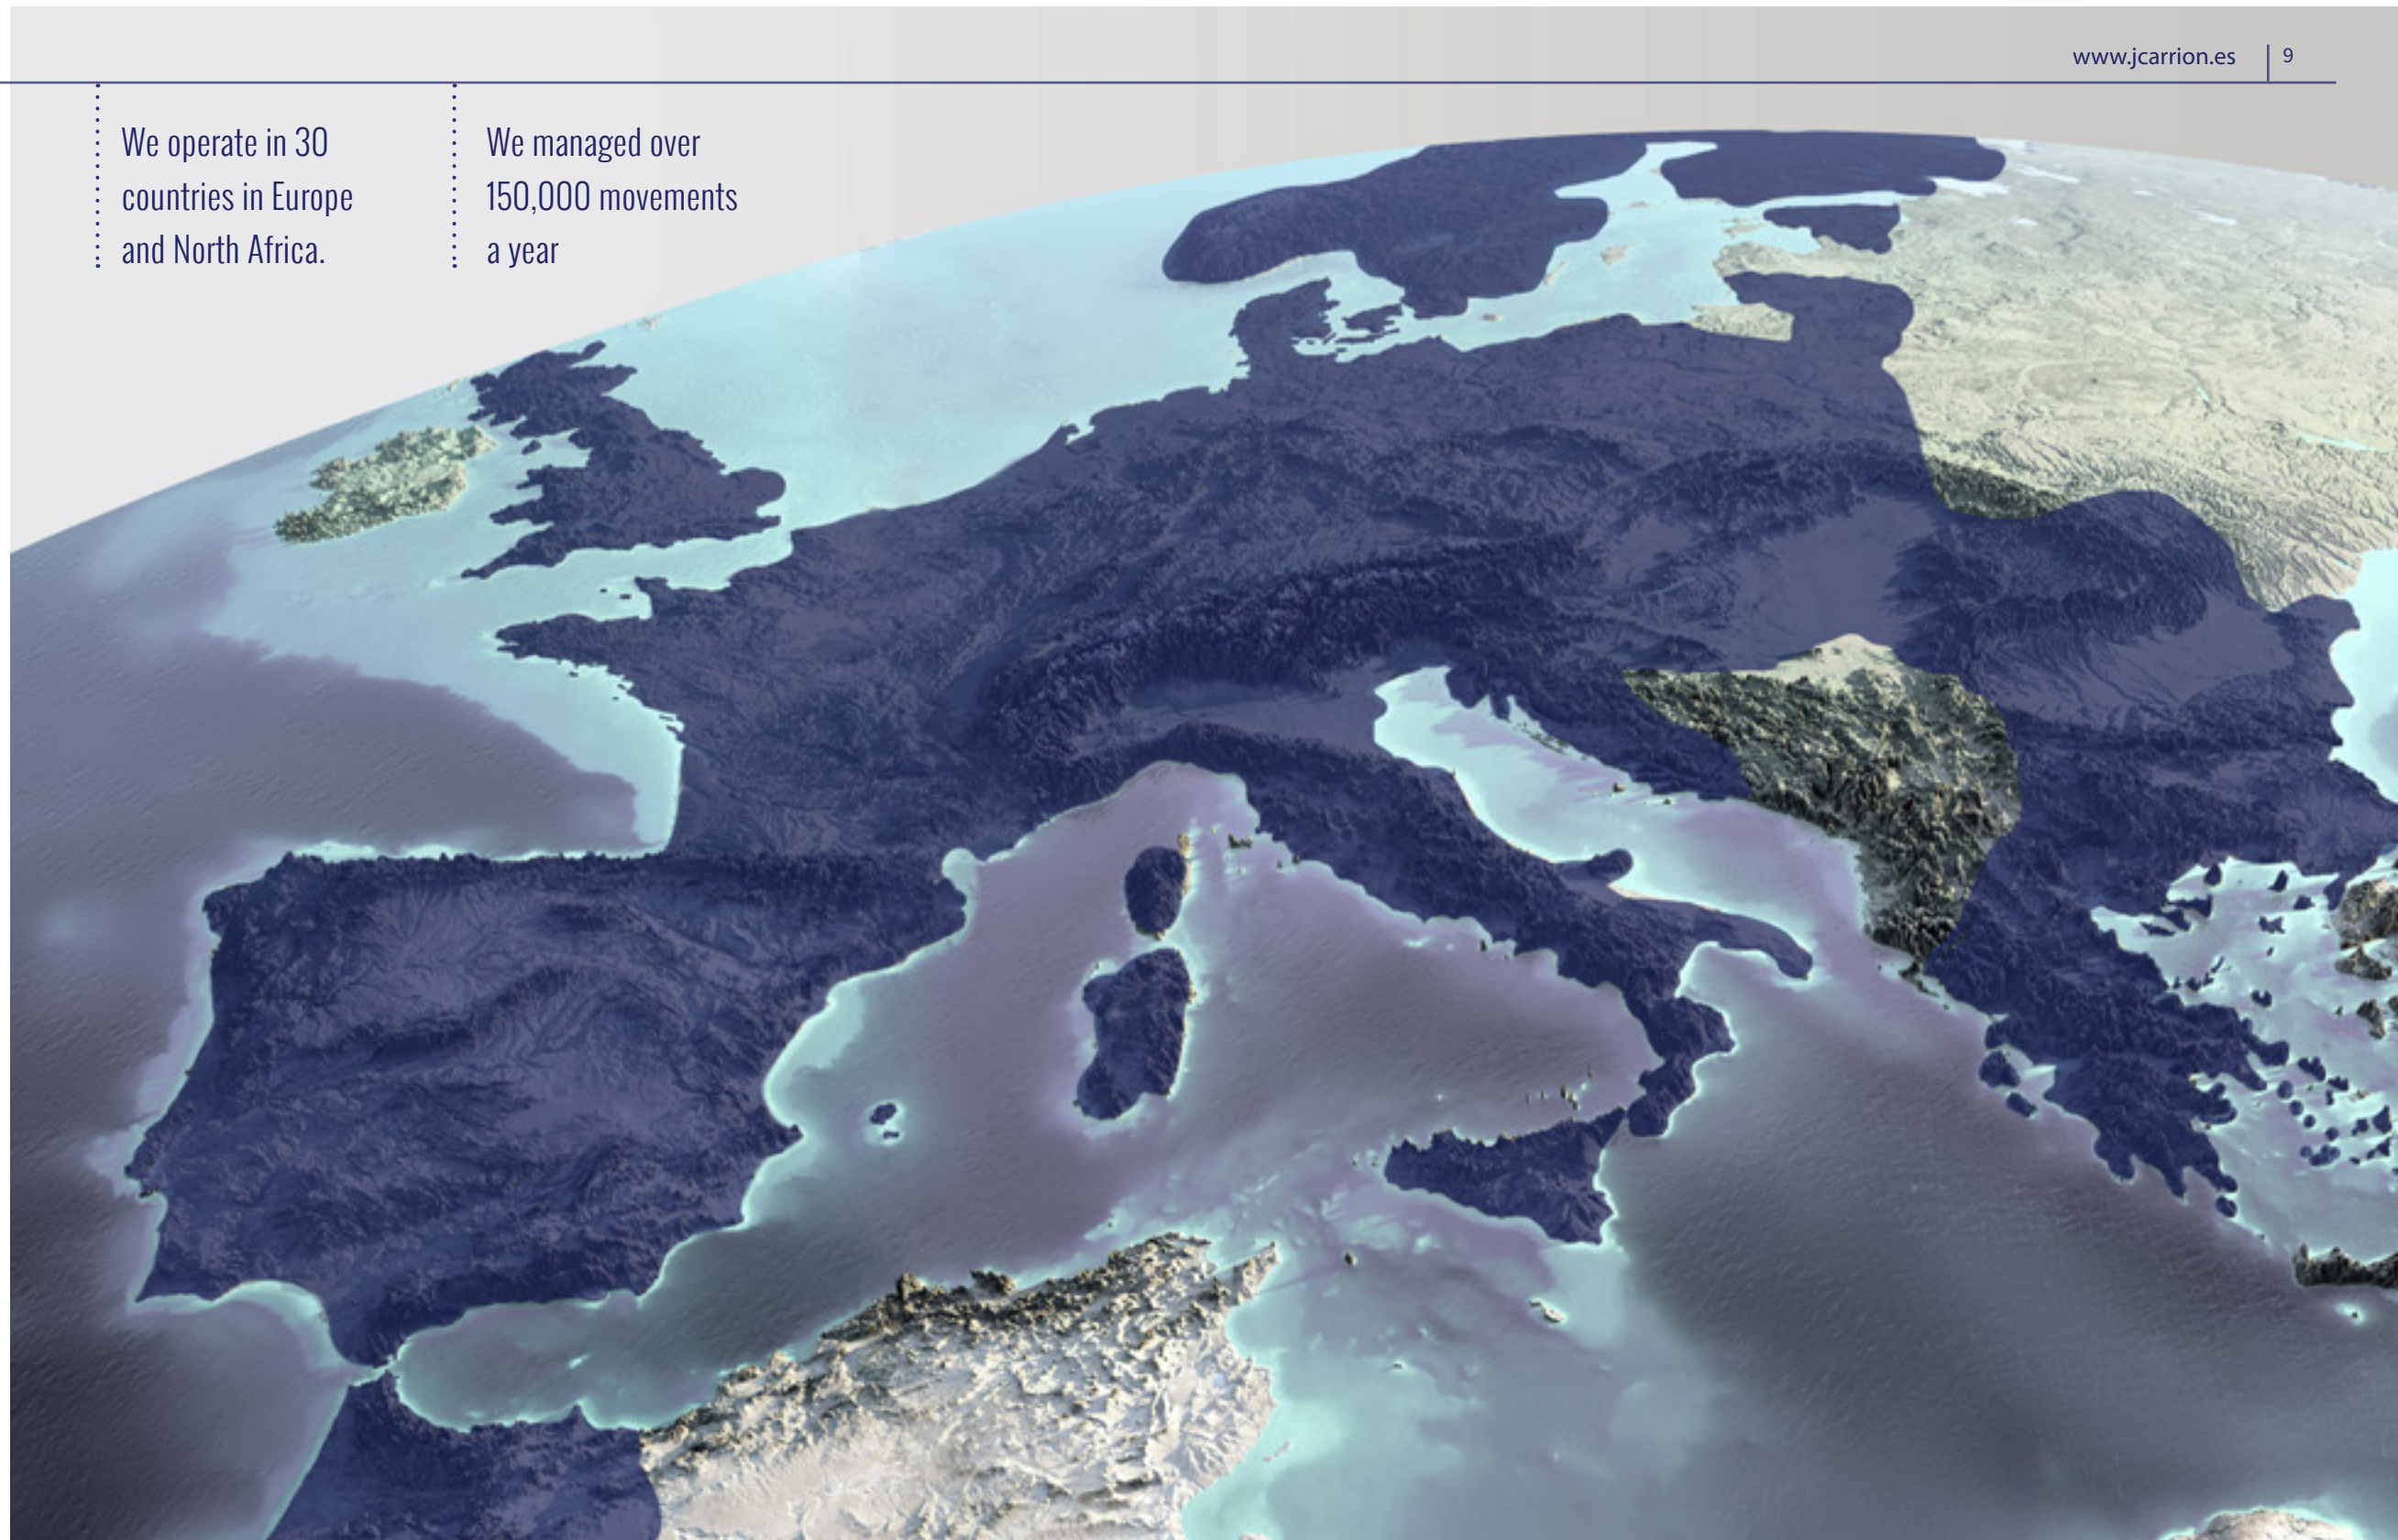

Geographical coverage

International areas of operation

In JCarrion we offer full or shared load services.

Services
available to
Clients

ADAPTED ACCORDING TO THE PRODUCT

Temperature controlled

We transport perishable food, fresh and frozen products with the option of dual temperature semitrailers.

Security for your merchandise

We can transport high-value merchandise in a secure container ensuring its safety.

CARGO VOLUME FLEXIBILITY

Full truck load (FTL)

Full truck load, direct to and from any point in Europe.

Partial Load / Less than truck load (LTL)

We adapt to any volume, optimising delivery costs at every stage of the operation. Our clients can opt for the shipment of palletised goods, a service we offer from Spain to the principal destinations in Europe.

FREIGHT OPTIONS

Standard Delivery

This service may only need a single driver, arriving on time, at an optimal cost.

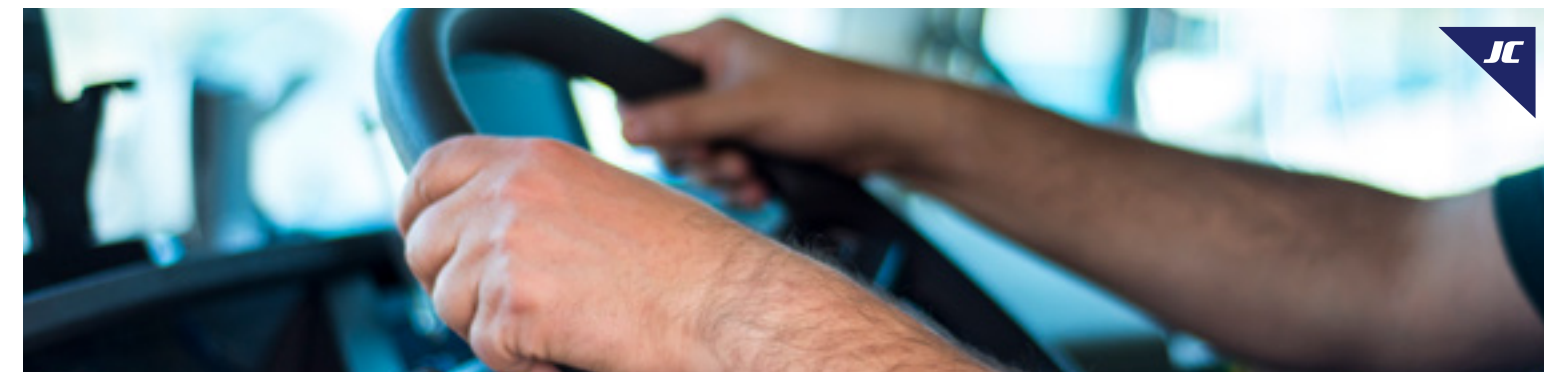

Fast Delivery

When you need to speed up delivery, we can offer a double driver option ensuring rapid shipping.

Express Service

When the urgency of the delivery is of importance, our non-stop service with driver and tractor unit (trailer) relays, is available.

INTERMODAL TRANSPORT

We maximise cost efficiencies by offering tailor-made combinations of Road, Sea and Rail transportation according to our clients' needs while addressing sustainability and environmental considerations.

INFORMATION

Quality assurance

A quality check of perishable goods in advance, allows the merchandise to be evaluated and cross checked with the agreed parameters (temperature, appearance, size etc.) at our consolidation platforms before the goods are dispatched.

Stock en route

Allows up-to-the-minute knowledge of all stock in transit at any moment in time, to allow for and implement, any necessary changes before arriving at its final destination.

Traceability

Our systems track and monitor the temperature throughout the operation right from the shipment's point of origin.

OTHER LOGISTICAL SERVICES

RECEPTION AND DISPATCH

Unload, load, control, check and verify, place and remove, on taking reception of and despatching goods.

HANDLING

Deconsolidation of merchandise and rapid consolidation of products ready for transportation.

STORAGE

Storage of conventional merchandising with temperature control.

PREPARATION OF ORDERS

Preparation of all types of goods by "picking" on unit by unit basis, batches or pallets.

STOCK CONTROL

A warehouse stock management system which allows us to control stocks and their movements in real time.

INVENTORY

We offer a general and cyclical inventory control and management system. (FIFO, FEFO, batch control...)

ADMINISTRATIVE MANAGEMENT

Comprehensive processing of all national and international transport documentation as well as electronic data exchange.

01 MORE SAVINGS

02 MORE SECURITY

03 MORE CONVENIENCE

04 MORE QUALITY

05 MORE CONTROL

07/

Our resources

THE TEAM

Qualified staff on-call 24 hours a day. Direct communication with a single contact person who sees to the client's needs in their own language and whose objective is to look after the product and ensure a punctual delivery.

FLEET AND PARTNERS

We manage an extensive fleet of 1450 Volvo tractor units and 1700 semitrailers, equipped with the latest technology and work closely with our established partners and suppliers all of which enables us to meet any request a client may have whilst guaranteeing traceability and offering a quality service.

08/

Sustainability for a better future

THE ENVIRONMENT

We foster initiatives to reduce carbon emissions and fight against climate change. We promote and train staff to drive more efficiently to reduce petrol consumption and will use the best combination of transport to maximise efficiencies (Intermodality).

Our fleet complies with European environmental standards and we constantly renew our vehicles to introduce all the improvements made by the automotive industry.

GUARANTEE OF QUALITY

We protect the consumer's health by ensuring safe transportation for food stuffs from its point of origin / point of departure to its final destination, focusing especially in guaranteeing the cold chain throughout the operation. We control any possible risks using our system of Auto-control and our APPCC (análisis de peligros y puntos críticos/risk and critical points analysis) establishing preventative hygiene measures as well as a system that monitors the quality of the product.

09/

We strive
to improve
constantly

INNOVATION

Always the best way forward

Our corporate strategy to grow by always delivering a service of the highest quality is firmly rooted in innovation. JCarrion's corporate culture, strongly encourages the constant generation of new ideas to improve processes and procedures as well as collaborative work amongst the workforce.

TECHNOLOGY

Constantly improving

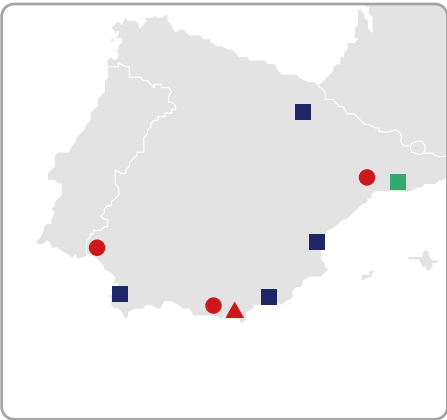

We introduce the latest on-board technology giving our drivers the best means to, amongst other things, telemetrically control, in real-time and digital format, the merchandise's temperature and to be able to manage online all the necessary documentation.
